Operations Coordination • Administrative Documentation • Inventory & Records Management • Workflow Optimization
Patient Registration & Verification • HIPAA Compliance • Database Systems • Microsoft Office • Bilingual (English/Spanish)

Work Experience

IT Student Lead
CISE, Carson, CA July 2024 - Present

- Developed and maintained operational checklists and standardized procedures to improve process consistency.
- Direct daily operational workflow of technology and equipment resources supporting faculty, staff, and students.
- Supervise and train a team of student technicians, delegating assignments and reinforcing procedural compliance.
- Maintain structured digital recordkeeping systems to track equipment usage, asset control, and operational data accuracy.
- Implement standardized check-in/check-out procedures to improve accountability and streamline service delivery.

Lab Technician I → III
CISE, Carson, CA July 2020 – July 2024

- Supported daily lab operations, ensuring organized equipment systems and compliance with safety and documentation protocols.
- Assisted in maintaining inventory records and tracking equipment usage.
- Promoted through three levels based on reliability, initiative, and operational competency.

Student Intern

Kaiser Permanente, Baldwin Park, CA January 2019-June 2019

- Conducted patient intake and verified demographic information for accurate documentation.
- Supported registration and scheduling to ensure efficient patient flow.
- Entered patient data into electronic records while maintaining HIPAA compliance.

Medical Assistant Intern

Los Niño's Children's Medical Clinic, West Covina, CA June 2019-August 2019

- Updated and organized patient charts, including vaccination records, to support billing and compliance accuracy.
- Communicated with parents and staff to confirm appointments and treatment updates.
- Ensured complete and accurate documentation to support efficient clinic workflow.
